Report Period: Period 1 (02/1- 02/14)

Summary of Progress in this Period

In the first two weeks, we contacted the client. We had a meeting with him in which we discussed the project we will be working on. He answered our questions about the project, and gave us resources (papers) to read and have questions ready to ask him next time. By Monday 02/15, we will have prepared our questions, and sent it to him as an email so he can prepare a presentation for us.

Pending Issues

No issues are pending at the current time.

Plans for Upcoming Reporting Period

We plan on meeting with our client and professor to determine the next steps in our process. We hope to begin developing a plan of action now that we will have been educated on the subject matter, and can begin developing a product.
