

Team Name: sddec21-13

Team Members: Ege Demir, Aaron Anderson, Sean McClannahan, Thane Storley

Report Period: April 12-April 28

Summary of Progress in this Period

- Worked on design document & final presentation
-

Pending Issues

- Collecting data & Training neural network
 - Making a remote server to collect the data
 - Automating data collection
 - Automating neural network training
-

Plans for Upcoming Reporting Period

- Figuring out which computer our cache data will be based on
 - Set up final Deep Learning program
 - Initially more experiments and getting hands on experience
-
